[Edit Code](#)

```
1 class Solution {
2     public String reverseWords(String s) {
3         String [] str= s.split(" ");
4         String ans="";
5         char temp=' ';
6         String aa="";
7         int m=0;int n=0;
8         for(int i=0;i< str.length;i++){
9             if(ans != "") {ans=ans+" ";}
10
11             aa= new StringBuffer(str[i]).reverse().toString();
12
13             ans=ans+aa;
14
15         }
16
17         return ans;
18
19     }
20 }
21 }
```
