Language: java

Edit Code

```java
class Solution {
    public List<String> fizzBuzz(int n) {
    List <String> str=new ArrayList<String>();
        for(int i=1;i<=n;i++){
            if((i%10==0 ||i%10==5) && (i%3==0)){
                str.add("FizzBuzz");
            }else if(i%10==0 ||i%10==5){
                str.add("Buzz");
            }else if(i%3==0){
              str.add("Fizz");
            }else{
                str.add(Integer.toString(i));
            }

        }
      return str;
    }
}
```
